Independent Auditor's Report

To the Board of Education Lynnville-Sully Community School District Sully, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of the Lynnville-Sully Community School District, Sully, Iowa, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of the Lynnville-Sully Community School District as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 5 through 11 and 36 through 38 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lynnville-Sully Community School District's basic financial statements. Another CPA firm previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the one year ending June 30, 2005 and we audited the financial statements for the eight years ended June 30, 2013, (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 6, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

Van Maanen. Sietstra. Meyes & Nikkel PC

In accordance with *Governmental Auditing Standards*, we have also issued our report dated October 22, 2014, on our consideration of the Lynnville-Sully Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lynnville-Sully Community School District's internal control over financial reporting and compliance.

October 22, 2014

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Lynnville-Sully Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2014. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2014 FINANCIAL HIGHLIGHTS

- General Fund revenues decreased from \$4,706,455 in fiscal 2013 to \$4,506,757 in fiscal 2014, while General Fund expenditures increased from \$4,636,505 in fiscal 2013 to \$5,035,164 in fiscal 2014. The District's General Fund balance decreased from \$1,226,143 in fiscal 2013 to \$698,246 in fiscal 2014, a 43% decrease.
- The decrease in General Fund revenues was attributable to less federal money received. The increase in expenditures was due
 primarily to an increase in salary and benefits.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Lynnville-Sully Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Lynnville-Sully Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Lynnville-Sully Community School District acts solely as an agent or custodian for the benefit of those outside of the district.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Other Supplementary Information provides detailed information about the non-major governmental funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

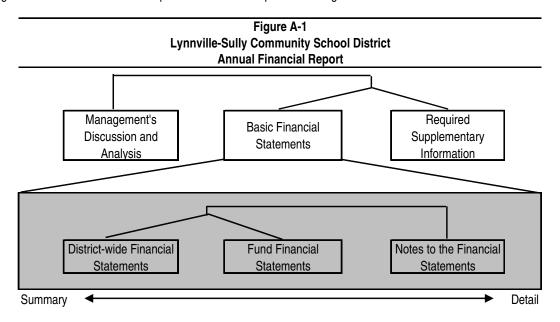

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how they have changed. Net position – the difference between the District's assets and liabilities – is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- Business type activities: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The district has two kinds of funds:

1) Governmental funds: Most of the District's basic services are included in governmental funds which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

2) Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund.

The required financial statements for proprietary funds include a statement of net position, a statement of revenues, expenses and changes in fund net position and a statement of cash flows.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net position at June 30, 2014 compared to June 30, 2013.

	Figure A-3 Condensed Statement of Net Position (Expressed in Thousands)										
		Governm Activiti		Busines Activi	• •	Tota Distr		Total Change			
		June 3	30,	June	30,	June	30,	June 30,			
		2014	2013	2014	2013	2014	2013	2013-2014			
Current and other assets	\$	4,547	4,961	68	43	4,615	5,004	-7.8%			
Capital assets		5,474	5,471	17	18	5,491	5,489	0.0%			
Total assets		10,021	10,432	85	61	10,106	10,493	-3.7%			
Long-term liabilities		2,701	2,955	-	-	2,701	2,955	-8.6%			
Other liabilities		2,734	2,841		-	2,734	2,841	-3.8%			
Total liabilities		5,435	5,796		<u>-</u>	5,435	5,796	-6.2%			
Net Position: Invested in capital assets,											
net of related debt		2,773	2,516	17	18	2,790	2,534	10.1%			
Restricted		1,252	1,025	-	-	1,252	1,025	22.1%			
Unrestricted		561	1,095	68	43	629	1,138	-44.7%			
Total Net Position	\$	4,586	4,636	85	61	4,671	4,697	-0.6%			

The District's combined net position decreased by nearly 0.6%, or approximately \$26,000, over the prior year. The largest portion of the District's net assets is the invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets.

Restricted net assets represent resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets increased approximately \$227,000, or 22.1% from the prior year.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – decreased approximately \$534,000 or 43.9%. This decrease in unrestricted net assets was primarily a result of increased special education expenditures.

Figure A-4 shows the change in net position for the year ended June 30, 2014 compared to the year ended June 30, 2013.

Change in Net Position	\$	(50)	67	24	(5)	(26)	62	-141.9%		

In fiscal 2014, property tax and unrestricted state grants account for 64% of the revenue from governmental activities while charges for service and sales and operating grants and contributions account for 100% of the revenue from business type activities. The District's expenses primarily relate to instruction and support services, which account for 91% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$5,988,924 and expenses were \$6,039,271.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs and other expenses, for the year ended June 30, 2014 compared to the year ended June 30, 2013.

Figure A-5

	Total and Net Cost of Governmental Activities											
	(Expressed in Thousands)											
	 Total Cost of	Services	Change		Net Cost of	Services	Change					
	 2014	2013	2013-2014	2014 201		2013	2013-2014

Support services	1,850	1,670	10.8%		1,826	1,655	10.3%					
Non-instructional programs	1	1	0.0%		1	1	0.0%					
Other expenses	 332	536	-38.1%		163	372	-56.2%					
Totals	\$ 6,039	5,740	5.2%	\$	4,628	4,281	8.1%					

For the year ended June 30, 2014:

- The cost financed by users of the District's programs was \$4,628,413.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$673,764
- The net cost of governmental activities was financed with \$2,615,635 in property and other taxes and \$1,606,034 in unrestricted state grants.

Business Type Activities

Revenues for business type activities during the year ended June 30, 2014 were \$284,877 representing a 10% increase over the prior year, while expenses totaled \$261,763, a 0.6% decrease over the prior year. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, Lynnville-Sully Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$1,843,298 down from last year's ending fund balances of \$2,141,100.

Governmental Fund Highlights

- The General Fund balance decreased from \$1,226,143 to \$698,246 due in part to the increased special education expenditures.
- The Physical Plant and Equipment Levy (PPEL) Fund balance decreased from a balance of \$274,332 in fiscal 2013 to a balance
 of \$190,892 in fiscal 2014.
- The Capital Projects Fund balance increased from \$707,028 in fiscal 2013 to \$913,111 in fiscal 2014.

Proprietary Fund Highlights

School Nutrition Fund net assets increased from \$61,301 at June 30, 2013 to \$84,415 at June 30, 2014, representing an increase of approximately 38%.

BUDGETARY HIGHLIGHTS

The District's receipts were \$518,529 higher than budgeted, a variance of 8%. The most significant variance resulted from the District receiving more in private contributions and free and reduced subsidies than budgeted.

Total expenditures were less than budgeted, due primarily to the District's budget for the instruction and support services.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2014, the District had invested \$5.5 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) More detailed information about the District's capital assets is presented in Note 4 to the financial statements. Depreciation expense for the year was \$338,364.

The original cost of the District's capital assets was approximately \$10.2 million. Governmental funds account for approximately \$10 million, with the remainder of approximately \$0.2 million accounted for in the Proprietary, School Nutrition Fund.

The largest change in capital asset activity during the year occurred in the buildings category. The District's buildings totaled \$8,371,332 at June 30, 2014, compared to \$8,266,639 at June 30, 2013.

Long-Term Debt

At June 30, 2014 the District had \$2,710,000 in general obligation and other long-term debt outstanding. This represents a decrease of approximately 8.6% from last year. (See Figure A-7) Additional information about the District's long-term debt is presented in Note 5 to the financial statements.

Figure A-7

Early retirement		-	10	-100.0%					
Totals	\$	2,701	2,955	-8.6%					

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

- The district expects increased special education costs due to increased special education needs including one-on-one associates.
- The district will negotiate a new agreement with PALS for fiscal year 2014-2015. Settlements in excess of "new money" or allowable growth in state funding will have an adverse effect on the District's general fund budget and related fund balance.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Karla De Cook, District Secretary/Treasurer and Business Manager, Lynnville-Sully Community School District, Sully, Iowa, 50251.

Exhibit D

Lynnville-Sully Community School District Reconciliation of the Balance Sheet Governmental Funds to the Statement of Net Position June 30, 2014

Total fund balances of governmental funds (Exhibit C)		\$	1,843,298
Amounts reported for governmental activities in the Statement of Net Position are different because:			
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.			5,473,792
Long-term liabilities, including bonds payable, bond issuance costs, accrued interest, early retirement, and other postemployment benefits are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Those liabilities at year-end consist of:			
General obligation bonds payable Revenue bonds payable Bond discount, net Accrued interest	•	415,000) 295,000) 8,671 (29,735)	(2,731,064)
Net position of governmental activities (Exhibit A)		\$	4,586,026

Exhibit F

Lynnville-Sully Community School District Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances Governmental Funds to the Statement of Activities Year ended June 30, 2014

Net change in fund balances - total governmental funds (Exhibit E)			\$	(297,802)
Amounts reported for governmental activities in the statement of activities are different because:				
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Position and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows: Capital outlays	8	341,080		
Depreciation expense		(338,364)	•	2,716
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		400,000		
GO bonds repaid Revenue bonds repaid		190,000 55,000		
Amortization of bond discount		(1,269)	•	243,731
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest				
expense is recognized as the interest accrues, regardless of when it is due.				1,008
Change in net position of governmental activities (Exhibit B)			\$	(50,347)

Cash and cash equivalents at year end	\$	66,019

Non-cash investing, capital and financing activities:

During the year ended June 30, 2014, the District received \$17,733 of federal commodities.

(1) Summary of Significant Accounting Policies

Lynnville-Sully Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the cities of Lynnville, Sully, Searsboro and Killduff, Iowa and the predominate agricultural territory in Jasper, Poweshiek and Mahaska counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Lynnville-Sully Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Lynnville-Sully Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organization</u> - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Jasper County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The District reports the following major governmental funds:

<u>General Fund</u>: The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

<u>Debt Service Fund</u>: The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

<u>Capital Projects Fund</u>: The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The other governmental funds of the District are considered non-major and are as follows:

<u>Special Revenue Funds</u>: The Special Revenue Funds account for the revenue sources that are legally restricted to expenditures for specific purposes. These funds consist of the following:

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extra-curricular or co-curricular activities.

Management Fund: This fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows. The following are the District's proprietary funds:

<u>Enterprise Funds</u>: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting, the District has elected to apply all applicable Financial Accounting Standards Board (FASB) pronouncements, issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements.

The District reports the following non-major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. <u>Assets, Liabilities and Fund Equity</u>

The following accounting policies are followed in preparing the financial statements:

<u>Cash, Pooled Investments and Cash Equivalents</u> - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in lowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u> - Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2012 assessed property valuations; is for the tax accrual period July 1, 2013 through June 30, 2014 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2013.

<u>Due from Other Governments</u> - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Inventories</u> - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u> - Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	<u>Amount</u>
Land	\$ 3,500
Buildings	3,500
Improvements other than buildings	3,500
Furniture and equipment	3,500

Capital assets are depreciated using the straight line method over the following estimated useful lives:

□ - 11:-- - 1 - - 1

Estimated
Useful Lives
(In Years)
50 years
20-50 years
5-15 years

<u>Salaries and Benefits Payable</u> - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

<u>Long-term liabilities</u> - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

<u>Deferred Inflows of Resources</u> - Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consists of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consists of the succeeding year's property tax receivable and income surtax receivable that will not be recognized as revenue until the year for which it is levied.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which an be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Unassigned – All amounts not included in other spendable classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2014, expenditures exceed the amounts budgeted in the instruction and support services functions.

(2) Cash and Pooled Investments

The District's deposits in banks at June 30, 2014 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

(3) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2014 is as follows:

Transfer to	Transfer from	Amount		
Debt Service	Capital Projects - LOSST	\$	119,800	
Capital Projects - Other	Capital Projects - LOSST		150,000	

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Capital Assets

Capital assets activity for the year ended June 30, 2014 was as follows:

		Dalamas			Dalamas Fuel of

	Total	\$	1,415,000	149,752	1,564,752	

Revenue Bonds

Details of the Districts' June 30, 2014 statewide sales, services and use tax revenue bonded indebtedness are as follows:

Bond Issue of April 1, 2010						
Year ending	Interest					
June 30,	Rates		Principal	Interest	Total	
2015	3.50%		55,000	53,150	108,150	
2016	3.50%		60,000	51,275	111,275	
2017	3.50%		60,000	49,175	109,175	
2018	3.50%		65,000	46,988	111,988	
2019	3.88%		65,000	44,712	109,712	
2020	3.88%		70,000	42,219	112,219	
2021	4.25%		70,000	39,506	109,506	
2022	4.25%		75,000	36,556	111,556	
2023	4.25%		75,000	33,369	108,369	
2024	4.25%		80,000	30,075	110,075	
2025	4.25%		85,000	26,569	111,569	
2026	4.70%		85,000	22,956	107,956	
2027	4.70%		90,000	19,035	109,035	
2028	4.70%		95,000	14,688	109,688	
2029	4.70%		100,000	10,105	110,105	
2030	4.70%		165,000	5,287	170,287	
	Total	\$	1,295,000	525,665	1,820,665	

The District has pledged future statewide sales, services and use tax revenues for the purpose of construction. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. The total principal and interest remaining to be paid on the notes is \$1,820,665. For the current year, \$109,800 principal and interest was paid on the bonds and total statewide sales, services and use tax revenues were \$366,011.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a) \$123,469 of the proceeds from the issuance of the revenue bonds shall be deposited to the Reserve Account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the Sinking Account.
 The balance of the proceeds shall be deposited to the Project Account.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a Revenue Account.
- c) Monies in the Revenue Account shall be disbursed to make deposits into a Sinking Account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the Revenue Account after the required transfer to the Sinking Account may be transferred to the Project Account to be used for any lawful purpose.

The District complied with all of the provisions during the year ended June 30, 2014.

(6) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.95% of their annual covered salary and the District is required to contribute 8.93% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2014, 2013 and 2012 were \$275,236, \$242,928 and \$216,056, respectively, equal to the required contributions for each year.

(7) Other Post-Employment Benefits (OPEB)

<u>Plan Description</u> - The District operates a retiree benefit plan which provides medical and prescription drug benefits for employees and retirees and their spouses. There are 70 active and 3 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is purchased through an outside provider. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

<u>Funding Policy</u> - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2014, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual OPEB cost	\$ 15,735
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost	15,735
Contributions made	(15,735)
(Decrease) in net OPEB obligation	 -
Net OPEB obligation beginning of year	 -
Net OPEB obligation end of year	\$ _
•	

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2014.

For the year ended June 30, 2014, the District contributed \$15,735 to the medical plan. Plan members eligible for benefits were not required to contribute.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2014 are summarized as follows:

			Percentage of	
	An	nual OPEB	Annual OPEB	Net OPEB
Year Ended		Cost	Cost Contributed	Obligation
June 30, 2011	\$	42,960	93.02%	-
June 30, 2012		42,960	100.00%	-
June 30, 2013		16,989	100.00%	-
June 30, 2014		15,735	100.00%	-

<u>Funded Status and Funding Progress</u> - As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2012 through June 30, 2014, the actuarial accrued liability was \$102,244, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$102,244. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$2,855,000, and the ratio of the UAAL to covered payroll was 3.5%. As of June 30, 2014, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Retiree Health Plan, presented as required supplementary information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumption includes a 4.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 3%. The ultimate medical trend rate is 3%. An inflation rate of 0% is assumed for the purpose of this computation.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2011 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2011.

The salary increase rate was assumed to be 3.5% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(8) Termination Benefits

The District offered a voluntary early retirement plan to its employees. Eligible employees must have completed at least 25 years of continuous service to the District and must have reached the age of fifty-five on or before June 30, 2014. The application for early retirement was subject to approval by the Board of Education.

The employee shall receive a total benefit of \$30,000 payable in six installments over a three year period. At June 30, 2014, the District had no early retirement obligations outstanding.

(9) Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$169,301 for the year ended June 30, 2014 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

11) Prospective Accounting Change

The Governmental Accounting Standards Board has issued Statement No. 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB No. 27.* This statement will be implemented for the fiscal year ending June 30, 2015. The revised requirements established new financial reporting requirements for state and local governments which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, the Statement of Net Position is expected to include a significant liability for the government's proportionate share of the employee pension plan.

(1) Basis of Presentation

The District operates within the budget requirements for school districts as specified by state law and as prescribed by the lowa Department of Management. Budgets are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

For the fiscal year beginning July 1, a proposed budget is adopted by the Board and filed with the County Auditor no later than April 15. The budget is certified by the County Auditor to the Department of Management.

Once adopted, the budget can be amended by the Board. The amendment must be published and a public hearing conducted prior to the amendment. Any amendments must be certified to the County Auditor no later than May 31. The proposed expenditure budget is advertised in the local newspaper, together with a notice of public hearing.

The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the functional area for a budgeted governmental, enterprise and private purpose trust funds in total, rather than by individual fund type. Formal and legal budgetary control is based on four major classes of expenditures known as functional areas. These four functional areas are instruction, support services, non-instructional programs and other expenditures. During the year ended June 30, 2014, the District over-expended the instruction functional area by \$127,815 and the support services functional area by \$116,325. The Code of lowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. Authorized expenditures cannot exceed the lesser of the certified budget plus any allowable amendments, or the authorized budget, which is the sum of the District's cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. Appropriations, as adopted and amended, lapse at the end of the fiscal year.

The District is required by the Code of lowa to budget for its share of media, education services and special education support provided through the local area education agency. The District's actual amount for this purpose totaled \$169,301 for the year ended June 30, 2014.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Education of Lynnville-Sully Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Lynnville-Sully Community School District, Sully, lowa, as of and for the year ended June 30, 2014, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 22, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lynnville-Sully Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lynnville-Sully Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Lynnville-Sully Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified a deficiency in internal control we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control described in Part I of the accompanying Schedule of Findings as item (A) to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lynnville-Sully Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance or other matters which are described in Part II of the Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2014 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Lynnville-Sully Community School District's Responses to Findings

Lynnville-Sully Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings. Lynnville-Sully Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of the testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Lynnville-Sully Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

October 22, 2014

Part I: Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCY:

A. <u>Segregation of Duties</u> – The limited number of office personnel prevents a proper segregation of accounting functions necessary to assure adequate internal control. This is not unusual in school Districts of your size, but the Board should constantly be aware of this condition and realize that concentration of duties and responsibilities in a limited number of individuals is not desirable from a control point of view. Under these conditions, the most effective controls lie in the Board's knowledge of matters relating to the District's operations.

<u>Recommendation</u> - We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances.

<u>Response</u> - We will continue to investigate alternatives to this problem.

Conclusion - Response accepted.

INSTANCES OF NONCOMPLIANCE:

No matters were noted.

Part II: Other Findings Related to Required Statutory Reporting:

1. <u>Certified Budget</u> - Expenditures for the year ended June 30, 2014, exceeded the certified budget amounts in the instruction and support services functions.

<u>Recommendation</u> – The certified budget should have been amended in accordance with Chapter 24.9 of the Code of lowa before expenditures were allowed to exceed the budget.

<u>Response</u> - Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded. We would like to note that expenditures in total were less than the total budgeted amount.

Conclusion - Response accepted.

- Questionable Expenditures No expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.
- Travel Expense No expenditures of District money for travel expenses of spouses of District officials or employees
 were noted. No travel advances to District officials or employees were noted.
- 4. Business Transactions No business transactions between the District and District officials or employees were noted.
- 5. <u>Bond Coverage</u> Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that coverage is adequate for current operations.
- 6. <u>Board Minutes</u> No transactions requiring Board approval which had not been approved by the Board were noted.
- 7. <u>Certified Enrollment</u> No variances in the basic enrollment data certified to the Department of Education were noted, however, the October 15th deadline for certifying was not met.

<u>Recommendation</u> – In the future, the District should ensure the enrollment data is certified timely to the Iowa Department of Education.

Response - We will attempt to comply in the future.

Conclusion - Response accepted.

- 8. <u>Supplementary Weighting</u> No variances regarding the supplementary weighting certified to the lowa Department of Education were noted.
- 9. <u>Deposits and Investments</u> No instances of noncompliance with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the District's investment policy were noted.
- Certified Annual Report The Certified Annual Report was certified timely to the lowa Department of Education.
- 11. <u>Categorical Funding</u> No instances were noted of categorical funding used to supplant rather than supplement other funds.
- 12. <u>Statewide Sales, Services and Use Tax</u> No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of lowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2014, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$ 432,696
Revenues/transfers in:		
Sales tax revenues	\$ 366,011	
Other local revenues	638	366,649
		799,345
Expenditures/transfers out:		
School infrastructure construction	185,248	
Other	2,000	
Transfers to other funds:	269,800	
Debt service funds	-	457,048
Ending balance		\$ 342,297

For the year ended June 30, 2014, the District reduced the following levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa:

		Rate of Levy		
	I	Reduction Per		
	\$1	\$1,000 of Taxable		
		Valuation	Dollars Reduced	
Debt service levy	\$	0.58000	10,000
